

VDPU-MD24220-21B-T

This product mainly provides lifting function for mobile aerial picker, equipped with self-developed 24V 2.2kW high-performance DC motor, CBKL helical gear pump, quantitative pressure compensation throttle valve, solenoid valve with manual descent function, theoverall structure of the unit is reasonable, compact layout, safe and durable rise and fall smoothly in the case of power failure, the operator can control the manual descent valve, from a high altitude down to the ground.

Technical Attributes

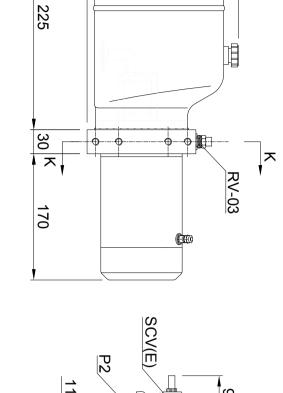

Oil Port	Tank Capacity	System Pressure	Pump Capacity	Rated Speed	Motor Power	Motor Voltage	Model Code	
G3/8 "	4L	16MPa	2.0mL/r	2800rpm	2.2kW	24V	VDPU-MD24220-21B-T	

Outline Dimensions

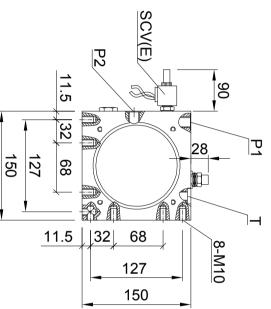

M12*1

K direction

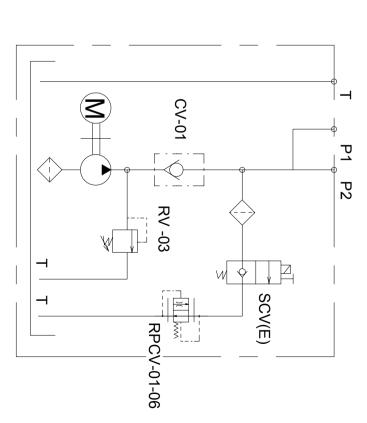

Ø178
